Duration: Five-days

Dates: Mar 29th - April 1st & April 5th - 9th, 2021

Location: Torrance, CA

\$450

BioArt fun camp - the perfect antidote to spring time blues!

Is your child curious, creative and in need of a fun activity during the spring break? “BioArt” fun camp provides the perfect solution for engaging active bodies and creative minds! With opportunities for play, art and scientific learning, your child will discover the exciting science of cell biology during crazy games and hands-on STEAM experiments!

Explore the following cell-biology topics during fun bioscience-themed art-labs:

Day 1: What are cells?

Day 2: What are cells made of?

Day 3: Cellular structures and “yucky” cells

Day 4: Feeding cells. Cells as food

Day 5: Plant cells

Your child will enjoy:

- Creating their own “cellfie”
- Baking a “cookie cell”
- Measuring their pulse with marshmallows
- And more...

Camp Provides:

- Active hands-on learning
- Fun bioscience experiments
- Peer socialization & cooperation
- Working scientist counselors
- Independent play time
- Cooking, crafts and model building
- Creative problem-solving
- Fun, friendships and mayhem!

“BioArt” fosters early interest in the biosciences while promoting confidence, individuality and creativity.
